English

Bangla

About Me

Passionate Software Developer and CSE student with a focus on Full-stack web development. I specialize in building scalable applications using the MERN stack and Next.js. With a strong foundation in Algorithms and Data Structures, I enjoy solving complex problems and integrating modern features like AI prompt engineering and secure payment systems into web platforms.

WORK EXPERIENCE

Full-Stack E-Commerce / Web Application

- Built a complete web platform using React.js, Node.js, and MongoDB.
- Implemented secure user authentication with JWT and integrated SSLCommerz/Stripe payment systems.
- Developed administrative dashboards for real-time data management.

Modern Web Portal with Next.js Performance & SEO

- Leveraged Next.js for SSR/SSG to ensure high performance and SEO optimization.
- Managed complex states with Hooks and built custom API Routes for backend communication.
- Styled with responsive modern CSS frameworks to ensure mobile-first design.

Freelance & Volunteering Digital Strategy & Support

- Worked as a Freelancer on various platforms, managing digital marketing and social media growth.
- Tutored students in Science and ICT, enhancing communication and leadership skills.

INTERESTS & HOBBIES

- Gaming: Finding logic and strategies in competitive e-sports and immersive gaming.
- Visual Storytelling: Exploring complex narratives and creative world-building in Anime, Manga, and Manhwa.
- Sports: Passionate about Football, valuing teamwork and physical discipline.
- Reading: Enjoying diverse perspectives through novels and storytelling.
