English

Bangla

About Me

Passionate Software Developer and CSE student with a focus on Full-stack web development. I specialize in building scalable applications using the MERN stack and Next.js. With a strong foundation in Algorithms and Data Structures, I enjoy solving complex problems and integrating modern features like AI prompt engineering and secure payment systems into web platforms.

WORK EXPERIENCE

Full-Stack E-Commerce / Web Application Key Features & Tech

- Built a full-stack web platform using React.js, Node.js, and MongoDB.
- Added secure JWT authentication and integrated Stripe/SSLCommerz payment systems.
- Developed admin dashboards for real-time data management.

Modern Web Portal with Next.js Performance & SEO

- Used Next.js SSR and SSG to improve website performance and SEO.
- Managed application state with React Hooks and built API Routes for backend communication.
- Created responsive, mobile-first layouts using modern CSS frameworks.

Freelance & Volunteering – Digital Strategy & Support

Worked as a freelancer on various platforms, managing digital marketing and social media growth. Tutored Science and ICT students, developing strong communication and leadership skills.

INTERESTS & HOBBIES

- Enjoy competitive gaming and analyzing strategies in e-sports, improving quick decision-making and logical thinking.
- Interested in visual storytelling through Anime, Manga, and Manhwa, exploring complex characters and creative world-building.
- Passionate about Football, valuing teamwork, discipline, and consistent performance.
- Enjoy reading novels and stories from different genres to explore new ideas and perspectives.
